

sokoloff arts

(501c3)

Sokoloff Arts is a women-led cultural institution creating inspired space and cultivating cutting edge experiences at **Town Stages**. Helmed by a team from different backgrounds and multi-hyphenate artistic disciplines, Sokoloff Arts builds viable and safe places to congregate, strives to promote cross-cultural community activations, and blends the arts and business sectors to design sustainable solutions to social and financial inequalities in New York City and abroad.

In this first year, Sokoloff Arts provided thousands of hours of space and production resources for it's 58 Fellowship 2018 Recipients, as well as numerous individual artists and organizations at Town Stages. Not only has it amplified the success of fundraising efforts in a myriad non-profit and civic sectors by subsidizing it's space, Town Stages has created job opportunities in support of these engagements.

town stages BY THE NUMBERS
